The GRP (fiberglass) outer shells are all handmade and finished, therefore some variations may appear in the finished weights (Manufacturers tolerance rate is within 10%).

Da die Herstellung der Glasfaserschalen manuell erfolgt, können unterschiedliche Zeltgewichte auftreten.

(Da es sich bei Dachzelten um handwerklich gefertigte Produkte handelt, sind Abweichungen bei Gewichten und Abmessungen im Rahmen üblicher Toleranz (10% möglich).

La production des coques en fibre résine est réalisée à la main, raison pour laquelle il est possible de noter des différences de poids au niveau de la tente (la marge de tolérance de fabrication est de l'ordre de 10%).

La produzione dei gusci in vetroresina è realizzata manualmente, di conseguenza è possibile riscontrare delle variazioni del peso della tenda (la tolleranza nell'ambito della costruzione di fabbrica è del 10%).
